 - Om buds
Camden spoke on issues regarding professionalism in the SA offices. SA officers and senators are not being professional. Finance committee and Event Grants committee are not being professional. Vice President and Secretary are not performing their jobs.
 - President
Working with GSA and others and identified student insurance as a big issue for the school. Insurance currently being provided is expensive and offers little benefits. Support is being gained to lobby in Santa Fe with campuses across New Mexico to lobby for a state wide insurance plan and pool all students in New Mexico together. This allows all the students across New Mexico to come together and get a better plan.

Dr Walsh would like input on community service ideas.

There will be a \$500 dollar prize for the best presentation at the upcoming New Mexico Tech Conference.
 - VP
Clubs can be funded if they are open and accept everyone.
Mason: Fund democrats or republican
Yes if they allow any one.
Bill: It is illegal to not fund anyone.
Conner: General rules for funding?
Camden: Fund a minimal amount of number for government and religious groups. Fund activities separately at a case per case level.
Officers must ask for questions after reports.
Event grants had money for all year. Divide money up per semester.
Ask for committee chair reports. If wan to know who is chair of committee come ask.
 - CFO
Daniel reports a lot of nothing.

SAB meetings not productive. Not enough people volunteering or helping. SAB needs more involvement. SAB expanded to include people that are not participating. Participation is a requirement for the SAB committee. People not involved will be voted off.
