

LIBRARY@NMIMT

Come by the Library and look at the Civil War items on display in the lighted cases in the entryway. Most of the items were donated by Cecil Amis, a 1928 alumnus. Mr. Amis said his BS in Mining Engineering was directly responsible for his considerable professional success as an engineer and has been a generous benefactor to NM Tech.

Office Suite, including Power Point has been installed on all the public PCs in the Reference desk area.

Have you been assigned a research project and don't know where to start? Do you need to know how to know how to cite references for a paper? Is there a question you need the answer to? Do you have a new interest and need all the information there is about it? We have just what you need at the Library. The friendly and knowledgeable staff at the Reference & Information Desk will be happy to help you find the answers. Don't be afraid of asking 'a dumb question' - there is no such thing. We really welcome your questions. In the process we usually learn a thing or two. So bring your questions and help us grow and learn too.

The Technical Journal shelving downstairs has been labeled and locating magazines is now much easier.

The Library will be showcasing the winners of a local Chemistry Poster contest. Students from Socorro middle and high schools created these 100 posters which will be displayed around the Library for a few months.

We always welcome your suggestions for making the Library your number one resource on campus:
