TREE REPLACEMENT:

--As part of our ongoing Tree Replacement Program, Facilities Management arranged for a study to be conducted on the center of campus by Mr. James Freeman, a professional arborist and retired New Mexico Urban Forester. Of the 205 older trees evaluated, Mr. Freeman has designated 25 for removal. This designation was based on the extent of internal or basal decay, often as a result of construction injury, previous topping, or other damage. Five of these trees have been removed, and the stumps will be ground as time permits. The other trees will be scheduled for removal over the coming year.

The trees to be removed are primarily elm and mulberry. They will be replaced by many different varieties which will contribute to the diversity of the trees on the New Mexico Tech campus. If you have any questions regarding our program, please call Karyn at 835-5840.

HOUSE ON TECH HILL:

--House for Sale. 1304 Vista Dr. 4 bedroom, 2 bath. Sun room, hot tub. Double wide carport, parking for trailer, 32' by 28' detached garage/workshop with 2-9' garage doors. Large lot with fruit trees. Please call 575-835-3892 (home) or 505-463-1153 (cell) for appointment.

--SCOPE advertises ONLY houses on Tech Hill for sale. Since New Mexico Tech owns the land under the houses on Tech Hill, state law requires us to offer these houses for sale to the Tech community (and NRAO) before they are made available to the general public.

--SCOPE does not advertise any other houses for sale or rent. SCOPE is not allowed to compete with the private businesses that sell houses and sell advertising.
