Drinking five glasses of water daily decreases the risk of colon cancer by 45%, plus it can decrease the risk of breast cancer by 79%. Also, one is 50% less likely to develop bladder cancer.

A mere 2% drop in body water can trigger fuzzy short-term memory, trouble with basic math, and difficulty focusing on the computer screen or on a printed page.

FACT SHEET

Fun Facts! Water Trivia! Did you know?

- Water Week is a national celebration of the good work performed by America's water professionals. Many people take safe, clean water for granted, but thousands of trained men and women are on the job around the clock to safeguard our water resources.
- The only water we will ever have is what we have right now.
- Showers can use up to nine gallons of water per minute. A bath requires 30-50 gallons.
- Once groundwater is polluted it may remain that way for several thousand years.
- It can take 120 gallons of water to produce one egg.
- A hot water faucet that leaks 60 drops per minute can waste 192 gallons of water and 48 kilowatt hours of electricity per month.
- Human blood is 83% water. Human bones are 25% water.
- Running the tap waiting for water to get hot or cold can waste five gallons per minute.
