On the homework, the pit gain should be 20 bbls not 10 bbls.

Also a correction was made to equations on the Kick sheet

\[ A = P_B - (D - X)\rho_m .052 - P_f + D^* (\rho_{m1} - \rho_m ).052 \]

Should be

\[ A = P_B - (D - X)\rho_{m1} .052 - P_f + D^* (\rho_{m1} - \rho_m ).052 \]
